Clips & Fixings
MultiClips & Bungees

Holdon® MultiClip MIDI & MINI Instant Eyelet Clips

The reusable instant clip-on eyelets and tarp clips - ideal for securing all types of textiles and fabrics.

The clips are designed to replace traditional eyelets and offer instant alternative fixing points on any flexible material - applied with a simple one-hand grip, without the need to hem, punch a hole in the material or use any additional tools. Unlike traditional eyelets the clips can be positioned anywhere along the material edge, removed and relocated again in seconds, if needed.

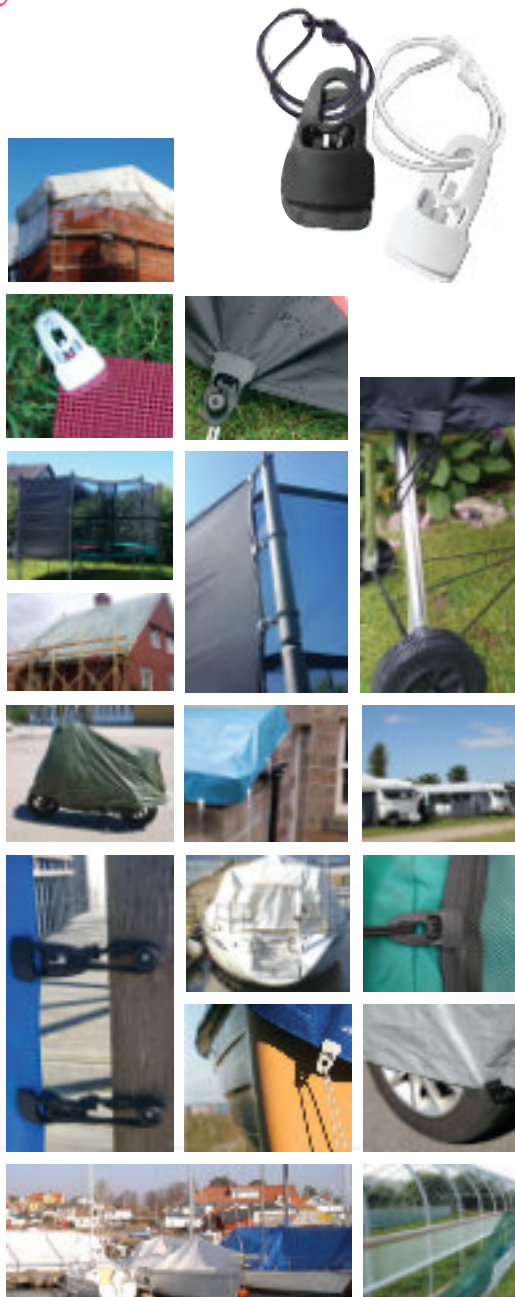

These high quality, Swedish, patented clips are based on the 'wedge' principle, i.e. the heavier the load, the tighter the grip - a grip tested up to 100 kg*.

**Test Holdon® MIDI/ Depending on material strength.*

- The heavier the load - the tighter the grip
- Stronger than traditional eyelets
- Reusable/relocatable
- No tools needed
- For flexible material up to: MIDI: 5mm/MINI: 1.5mm thickness
- Gripping performance tested up to: MIDI: 100 kg/ MINI: 45 kg
- Temperature range: - 30°C to +100°C

A multitude of application fields!

Holdon® Crochet Bungee Ties Snap-on Self Locking Hook

The safe anchoring accessory! Bungee cord ties in natural rubber for every possible tie-down or suspension application.

Bungee ties will provide a durable elasticity when hanging or anchoring tarps, covers, sheeting, netting and other various fixing needs. The elasticity will spread the loading evenly and reduce shock loading for improved durability.

When used together with Holdon® clips a complete, strong and durable fixing solution is created - in seconds.

- High quality for long lasting elasticity
- Multi-strand, natural rubber cord - knot terminated
- Snap-on self-locking hook
- Lengths: 180 / 250mm
- Cord Diameter: 4mm
- Loading Capacity: 25 kg
- Elongation: max. 110%
